Once you have selected your sizes, you can check out and pay then it will be shipped to your home!

**\*Note:** The Dash jersey is described as the 'Women's Tiempo jersey'. Once you click on to choose your size, it also has Youth sizes. If you choose to look at the sizing chart, initially it will appear as the adult chart, but look in the top left hand side of that box to 'see all sizing charts'. The sizing chart is a generic chart for everything they sell on the website. When it comes to the jerseys, the chart seems to be generous on the size of child compared to actual size of jersey. I have had many requesting the Youth 2XS, which is not available. Up until this year, the smallest we were able to offer is the Youth S and it was doable for all U5 & U6; therefore, now being able to order the Youth XS should be great for our littlest ones! Also keeping in mind, they can wear these jerseys for as long as it fits them.
